RG1645

Turbo Diesel, Self-Propelled Stump Cutter

General Specifications:

Weight	2,450 lb (1,111 kg)
Length	136" (345 cm)
Height	56.6" (143 cm)
Width	35" (88.9 cm)
w/ Dual wheels	46" (117 cm)
Ground Drive	Self-propelled hydraulic, variable speed
Engine	KUBOTA V1505-T, 4 cylinder, turbo diesel, 44 hp (33 kW)
Fuel Tank	10 gal (37.8 L)
Super Tooth®	24 total
Cutter Wheel	20" x .625" (50.8 x 1.6 cm)
Cutting Depth	14" (35.5 cm)
Cutting Height	23.5" (59.7 cm)
Cutting Width	59" (149.8 cm)

Shown with optional utility hitch / lifting eye.

The revolutionary design of **RAYCO's RG1645** combines a 44 hp Kubota turbo-diesel engine, 4 wheel-drive, and 59" cutting width into a compact machine with a low center of gravity. The unique pivot design keeps the engine's weight low to the frame so you don't sacrifice stability to get diesel horsepower to the stump. Fold down chip retainers provide loads of chip capacity and minimize cleanup time.

The RG1645 was built with the operator in mind. RAYCO's exclusive 2-joystick control system makes operation a breeze. One joystick controls ground travel while the other controls cutter boom and backfill blade functions. Command Cut prevents engine stalling and allows mechanical drive train to deliver maximum horsepower to the cutter wheel. You need a machine that is capable of taking on whatever challenges your job brings. The RG1645 is your smart solution from RAYCO.

- Dual rear wheels
- Fits through 36" gate (w/removal of outer dual wheels)
- 44 hp Kubota turbo diesel
- 4 wheel-drive w/2-speed
- 2-Joystick control system
- Low center of gravity
- Hydraulic backfill blade
- Command Cut

Hydraulic Backfill Blade

Optional Utility Hitch / Lift Eye

Fold-Down Chip Retainers

2-Joystick Control System
